

# STEM AMBASSADOR SPOTLIGHT

**Karit Maharjan**  
Civil Engineering

**How did you select your college major? What was the biggest influence?**

I studied Civil Engineering during my undergraduate and worked for over 8 years in this field. I always wanted to enhance my knowledge in Civil Engineering, so I joined the University of Memphis for my graduate program.

---

**What advice would you share with K-12 students who are considering your major?**

Studying civil engineering will give you the opportunity of creating a meaningful impact on our world by constructing infrastructures that will benefit all people. It helps to make this world a better place to live and sustainable development around the globe.

---

**What high school elective course do you wish you had taken to better prepare you for college?**

I wish I had taken "the basics of civil engineering" as an elective course.

---

**When you aren't in class or studying, what can you be found doing in your spare time?**

Watching videos about designing structures, Universe/Space, Planets, and Galaxies.

---

**What motivates you to get out of bed and go to class every day?**

The drive to learn more knowledge and be better every day motivates me.

---

**How do you or your major make a positive impact on society/our community?**

Designing, building, and maintaining critical infrastructures that benefit everyone.

---

**What do you look forward to the most while being a STEM Ambassador?**

Inspiring students to help identify their goals and pursue their aims.
